

HEALING THROUGH TIME

W/VIRGINIA WALDRON, CH, CI

The RoseHeart Center

Sunday, December 2, 2012

1:00 PM - 5:00 PM

\$55 per person - Registration Required

This is an experiential class in Reincarnation and past life journeys. Part class/lecture and part workshop, we will discuss Reincarnation and the patterns of belief in the philosophy of past lives throughout the history of the world. We will also talk about past lives and what it means to incarnate here on earth over and over again. We will include in our discussion past life regression as a healing modality, and how it works and how it changes our lives.

After a brief break, we will shift from talking to experiencing. Guided past life journeys are like a guided meditation, accessing the inner being in order to explore the memories of previous lifetimes we have gone through along our Soul's journey, in a safe and comfortable group environment. There will be plenty of time for questions and sharing experiences at the end. Bring a comfy pillow and/or blanket, your journal if you have one, and all your questions!

To sign up send your check to Virginia Waldron at The RoseHeart Center, 214 Highbridge St., Fayetteville, NY 13066 before Nov. 25th, 2012.

- Virginia Waldron is a certified consulting hypnotist, as well as a certified instructor in hypnosis through the National Guild of Hypnotists.
